OBJETIVO

Senior Software Engineer with 6+ years of experience building scalable systems and high-performance applications used by 100k+ users.

Specialized in backend architecture, distributed systems, and cloud infrastructure, with a strong track record of performance optimization and bottleneck resolution in critical systems, including financial platforms.

Key Achievement: Reduced report processing time from 30 minutes to under 2 minutes (15x faster) in a financial system by redesigning the architecture using parallel processing in Node.js.

PROFESSIONAL SUMMARY

- Backend: Node.js, TypeScript, REST APIs, GraphQL, Microservices
- Frontend: React, Next.js
- Cloud: AWS (S3, EC2), Docker, CI/CD, Cloudflare, Vercel
- Databases: PostgreSQL, MongoDB, DynamoDB, MySQL
- Architecture: Distributed Systems, SaaS, Multi-Tenant
- Practices: Performance Optimization, Scalability, Clean Code

PROFESSIONAL EXPERIENCE

HYWORK — SAAS PLATFORM (REMOTE)

Senior Software Engineer

Remote

nov 2025 - Present

- Designed a multi-tenant architecture with dynamic DNS (Cloudflare + Vercel) → enabled custom domains per client and improved scalability.
- Re-architected file storage with Amazon S3 (chunked uploads + compression) → increased upload performance by 20%+.
- Built a secure account activation system → improved onboarding security and user experience.
- Integrated Google Workspace and SharePoint into a centralized governance platform.
- Standardized infrastructure using Docker → improved deployment consistency across teams.

STEFANINI (FINANCIAL SYSTEM)

Full Stack Software Engineer

Remote

Feb 2024 – Dec 2025

- 🚀 Reduced report generation time from 30 minutes to under 2 minutes (15x faster) by redesigning the processing pipeline using parallelism in Node.js.
- Developed and maintained microservices (REST & GraphQL) in a high-demand financial environment.
- Built scalable React SPAs for data visualization and operational workflows.
- Managed PostgreSQL and DynamoDB in production systems.
- Implemented Docker-based environments, improving deployment reliability.

CRP TECNOLOGIA

Full Stack Software Engineer

Remote

Sep 2022 – Dec 2023

- Worked on the judicial system (E-PROC) ensuring reliability and performance.
- Improved legacy systems and implemented new features.
- Managed databases and Docker environments.

EDUCATION

BACHELOR'S DEGREE IN INFORMATION SYSTEMS

Completed: Jun 2023

Federal Institute of Education, Science and Technology of Tocantins (IFTO)

- Graduated from a federal institution consistently rated among the highest by Brazil's Ministry of Education (MEC).
- Strong foundation in Software Engineering, Systems Analysis, Databases, and IT Infrastructure.
- 1st Place in a Nationwide Hackathon, representing the institution.

POSTGRADUATE SPECIALIZATION IN PROGRAMMING LANGUAGES & PARADIGMS

Completed: Mar 2025

Gran Faculdade

- Advanced studies in software design, programming paradigms, and scalable system decision-making.
- Focus on real-world architecture and complex problem solving.

POSTGRADUATE SPECIALIZATION IN WEB DEVELOPMENT

Expected: Jun 2026

Federal Institute of Education, Science and Technology of South of Minas
Gerais (IFSULDEMINAS)

- Specialized in modern web architectures and scalable application development.

LANGUAGES

- Portuguese: Native
- English: Professional working proficiency
